MISSION INVISIBLE

MODEL SOHO

Soho – ER57M 83
cosmos black

MINIMALIST DESIGN WITH GREAT EFFECT

Minimalist - designs reduced to the essentials is the main characteristic of modern, purist interior design. KARCHER DESIGN has dedicated their mission to this style, and developed a new concept in which the door handle and rosette appear to be almost invisible: „The Mission Invisible“.

The result is a mini rose with a diameter of just 30 mm and a thickness of 2 mm. The rosette disappears almost completely behind the door handle and reduces the door fitting to a minimum. A total of five matching door handle models are available in classic matt stainless steel and the multi-award-winning trend colour Cosmos Black. In addition, the new finish Polaris White blends the door handle models into the canvas of white doors, making the door fitting invisible.

In order to make the mini-rose as minimalist as possible from a technical point of view, the rosette is not screwed on. The mini-rose is simply pressed into the door. The small serrations anchor the rose firmly in the door leaf. This innovative mounting technique does not require additional drilling in the door leaf and is particularly durable. The door handles are fixed to the spindle by means of the grub screw. On request, the mini-rose can also be combined with other models in the KARCHER DESIGN range.

Soho – ER57M 71
satin stainless steel

Soho – ER57M 84
polaris white

- Interplay of shapes with clear edges and round elements
- Door handle lies ergonomically in the hand
- Design by Itamar Harari

MODEL BOSTON

MODEL BROOKLYN

Brooklyn – ER59M 84
polaris white

Boston – ER58QM 71
